|---|-------------------------------|
| 2022 Innovation Networks Annual Symposium: CFPMN1 Advanced Materials | <i>Thursday June 09, 2022</i> |
|---|-------------------------------|

| | |
|---------------|---|
| 11:00 - 11:10 | Welcome and Opening Remarks |
| 11:10 - 11:30 | Flexible, Stretchable and Self-Healable Optoelectronic Materials for Detection Avoidance and Physical Protection Hosted by Polytechnique Montreal's Micro-net |
| 11:30 - 11:50 | The Comfort-Optimized Materials for Operational Resilience, Thermal-transport, and Survivability (COMFORTS) Hosted by the University of British Columbia's Micro-net |
| 11:50 - 12:10 | Composites multifonctionnels pour la fibre du futur Hosted by Sherbrooke University's Micro-net |
| 12:10 - 12:15 | BREAK |
| 12:15 - 12:35 | Development of Advanced Materials for Improved Protection Against Ballistic Impact, Wear and Corrosion Damage with Additive Manufacturing and Cold Spraying Hosted by the University of Manitoba's Micro-net |
| 12:35 - 12:55 | Terahertz to Mid-Infrared Compact Photonic Platform on Scalable Semiconductor Technology Hosted by Polytechnique Montreal's Micro-net. |
| 12:55 - 13:15 | Artificially Intelligent Biomimetic Metasurfaces for Electromagnetic Camouflage Hosted by Carleton University's Micro-net |
| 13:15 - 13:30 | BREAK |
| 13:30 - 15:00 | This moderated session will provide an opportunity for Micro-Nets to network directly with DND/CAF stakeholders to outline opportunities for their research and how it links to DND/CAF priorities. Panel Discussion - Michael Mancini |
| 15:00 - 15:30 | Closing Remarks |
